OpenCircle Onboarding Guide

Absolutely anyone can join OpenCircle—even if you're brand new to crypto. Follow these simple steps and you'll be part of our DAO in minutes.

Step 1: Create a Free Crypto Wallet (If You Don't Have One)

- Download <u>MetaMask</u> or <u>Coinbase Wallet</u>.

- Follow in-app instructions to create your wallet.

- **Important:** Write down your secret recovery phrase and keep it safe (never share it with anyone).

Step 2: Get Your Wallet Address Ready

- Open your wallet app or extension.

- Make sure the **Polygon** network is selected (in MetaMask: "Add network" → search for "Polygon" or enter Chain ID 137).

- Click your account/address (starts with "0x...") and copy it.

Step 3: Claim Your Free OCL Tokens

- Share your wallet address in our Discord #onboarding channel or DM it to an admin.

- Or email it to **hello.opencircle@gmail.com** with the subject "Claim OCL".

Step 4: Wait for Your Welcome OCL

- The OpenCircle team will send OCL tokens to your wallet address (completely free—there's no catch!).

- You'll see OCL appear in your wallet once the transaction is complete (usually within a few minutes).

Step 5 (Optional): Make OCL Visible in MetaMask

1. Click "Import Tokens" in MetaMask.

2. Paste this Token Address:

   - **0x0aF0F1DBE4003B0f270105dc168f4A41E7968B3D**

3. Symbol: **OCL**

4. Decimals: **18**

5. Click "Add Custom Token".
   OCL should now display in your wallet's asset list.

Step 6: Join Voting & Governance

- Go to Snapshot Governance.

- Connect your wallet.

- Cast your vote, submit proposals, or simply watch the DAO in action.

Need Help?

We're here for you!

- **Discord #onboarding:** Get instant help, walkthroughs, and answers.

- **Email:** hello.opencircle@gmail.com

- **No crypto/web3 experience? No problem—our community loves assisting first-timers!**

OpenCircle exists so anyone—whether a complete beginner or a web3 veteran—can participate, earn, and shape our future together. Don't hesitate to reach out if you're lost or want a step-by-step guide personalized for you!
